# LIFE SAFETY AND ELV SYSTEMS

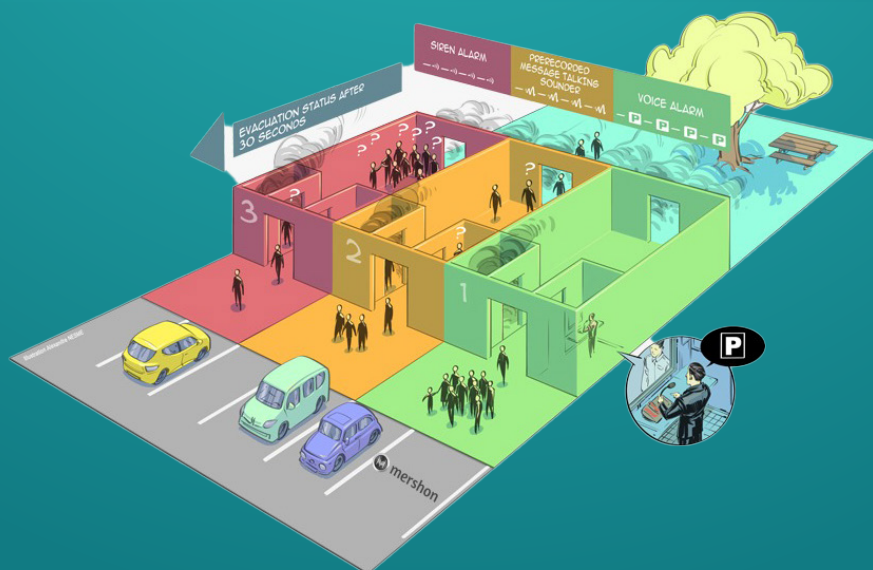

SCAN ME

At Node systems, we pride ourselves on being your one-stop integrator for all your life safety and ELV (Extra-Low Voltage) system needs. From technical expertise to seamless installations and personalized consultancy services, we are dedicated to providing you with peace of mind and security, every step of the way.

**Fire Alarm System :** Early detection and swift response are crucial in preventing fire-related incidents. Our state of the art fire alarm systems are designed to detect potential threats and alert you to take prompt action, minimizing risks and ensuring the safety of your premises.

**Emergency Lighting system :** designed for both stand-alone use and combined integration with fire alarm systems. Our stand-alone systems offer reliable illumination during power outages, guiding occupants to safety with ease. With long-lasting battery life and easy installation, these solutions ensure minimal disruption to your operations. Additionally, our combined systems seamlessly integrate emergency lighting with fire alarm functionality, providing comprehensive safety coverage for your premises.

**PAVA System :** Public Address and Voice Alarm (PAVA) systems are essential for effective communication and emergency evacuation procedures. Our PAVA systems offer clear, intelligible audio announcements, enabling swift and orderly evacuations in times of crisis.
